

Interpreting CPA Examination Results

The following information is designed to help you interpret your performance on the Core examination.

OVERALL PASS/ FAIL RESULT – If you achieved either of a “Pass with distinction”, a “pass” or a “marginal pass” you are eligible to proceed to the next module of the CPA Professional Education Program (PEP). If you received a FAIL, you are allowed to rewrite the next offering of the examination without repeating the module. You will be required to repeat the module prior to a third attempt at the module examination.

This overall result is based on:

- how you performed on a **combined** basis on the objective format and case portions of the examination; and
- how you performed as compared to a **competency profile and fair pass mark** set by the Board of Examiners.

Overall Result	Next Steps
Pass with distinction	You are eligible to proceed to the next module of the CPA Professional Education Program (CPA PEP)
Pass	You are eligible to proceed to the next module of the CPA PEP
Marginal pass	You are eligible to proceed to the next module of the CPA PEP
Fail	You are allowed to rewrite the next offering of the examination without repeating the module. You will be required to repeat the module prior to a third attempt of the module examination. See <i>Examination Appeals</i> for an additional option.

FEEDBACK BY EXAMINATION PORTION –The transcript also provides information with respect to *your performance*, by specific competency area as compared to *group* of candidates on the **same sitting** of the examination. This feedback information is **not** comparable to other sittings and it is **independent of the fair pass decision**. *Your performance* in each relevant technical competency area (i.e. Financial Reporting; Strategy and Governance; Management Accounting; Audit and Assurance; Finance; and Taxation) is indicated by the shading of the assessed level for each area. This can be compared to the *group performance*, which represents the percentage of candidates that attained each competency level for this examination.

Please note that all competency areas are not assessed on every examination, and therefore you may not receive feedback on all technical competency areas.

The two portions are:

Performance on Objective Format Questions – this section provides information on the multiple-choice questions that you answered as part of the examination.

Performance on the Case – this section provides information on the case(s) that you answered as part of the examination.

Weighting of Competency Areas

Keep in mind the coverage (%) of each competency area when interpreting your results. See blue print below to know what competency areas have more or less coverage.

The Core blueprints allow for the objective-format portion of the examination to be 75% of the exam. The coverage of the different competency areas for the objective-format portion falls within the following requirements:

CPA Competency Areas	Core 1 competency area weighting*	Core 2 competency area weighting**
1. Financial Reporting	50 – 70%	0 – 10%
2. Strategy and Governance	n/a	10 – 30%
3. Management Accounting	n/a	50 – 70%
4. Audit and Assurance	10 – 30%	n/a
5. Finance	5 – 10%	15 – 20%
6. Taxation	10 – 20%	n/a

* Covers entry and Core 1 competencies

** Covers entry, Core 1, and Core 2 competencies

Case Performance

The Core blueprint allows for the case portion of the examination to be 25% of the exam, and consists of one case.

Performance has been assessed in one of the following levels:

Performance Levels	Definitions
Not Addressed	<i>A response that failed to address the issue</i>
Nominal competence	<i>A response with very little “value” added; a failing response</i>
Reaching competent	<i>A reasonable attempt, but one that lacks an essential element of the board’s expectations and therefore shy of being assessed Competent</i>
Competent	<i>A response that meets the expectations, as defined by the Board of Examiners for Core</i>
Competent with distinction	<i>A response that provides additional information or insight, beyond the expectation set for Core.</i>

Each candidate is judged in relation to pre-established expectations of what an entry-level CPA is able to perform by the end of Core 1 or Core 2, as applicable. Before the opening of the marking centre the evaluation guide for the case(s) is reviewed and applied to randomly selected candidate responses to test the pre-established passing profile, and make necessary adjustments.

In setting the passing profile, the following factors are considered:

- The level of difficulty of the examination questions.
- The design and application of the marking guide on the case portion.
- Comments from markers regarding any marking difficulties encountered or any time constraints noted on the case portion.
- Possible ambiguity of wording in the case.

Examination results appeals

Candidates who receive an **Overall Result** of **Fail** may appeal. Candidates may only apply for a review of their entire examination results, not individual portions.

Decile Ranking Provided for Failing Candidates

A grouping of 1 to 10 will appear, for failing candidates only, at the top of the transcript. This means that failing candidates are classified in one of ten groupings with the lowest number being closest to the passing standard and the highest number being furthest away. The decile ranking is provided to help candidates decide if they should appeal. The higher the decile ranking, the further away the candidate is from the passing standard and therefore the lower the chance of a change in status on appeal.

Candidates should consider the fact that core results are more heavily weighted by the multiple choice question results (which would not likely change on appeals), and therefore candidates should look at their decile ranking in combination with their performance on the case portion of the exam.

Before submitting your request, please note the following:

- An appeal does not provide any additional feedback on your result; it does ensure that you received credit for all competencies demonstrated.
- After original results were recorded, the case portion was marked again for candidates whose performance was within a set range of the passing standard. Any differences between the first and second marking was arbitrated by a third marker, ensuring fairness in marking the candidates' responses around the passing standard.

The following procedures are applied to an appealed result:

- **Objective-Format Portion:** When the objective-format questions include a written element (e.g., short answer or fill in the blank) the written responses are reviewed. The objective format questions are verified against the right answers.
- **Case Portion:** Competency-based assessment is applied. A change to the assessment is made only if one or more of the following errors occurred. The marker:
 - misapplied the marking guidelines
 - failed to consider a relevant section of the candidate's response (e.g. the markers missed a relevant discussion somewhere, etc.)
 - exhibited poor application of judgment

Candidates appealing their examination results must forward their request to the Board of Examiners through their provincial body within three business days from results release. Appeals requests will be handled:

- For CPA West candidates, through the My CPA portal.
- For Ontario candidates, refer to the Challenge Exam Writers discussion board for instructions.
- For Quebec candidates, email: examens@cpaquebec.ca
- For Caribbean candidates, email: KScarlett@cpacanada.ca
- For CPA Atlantic, email: programs@cpaatlantic.ca

If an appeal is successful, the fee will be refunded.

Appeals results will be released as they become available.
